High School Sophomore, New York

Living with Glaucoma

I like school. I do like it, it's fun. I get to hang out with my friends. I experience not only new places but new people. They come here all the time. We have a lot of activities at our school. Lots of sports, basketball, goal ball... Goal ball is when you roll the ball on the ground and everyone has to be silent. We do swimming bowling, wrestling and with wrestling we get to face other public schools.
